## MEET & GREET

- 1.** Introduction and Motivation: With a knack for communication, Kai begins with how he started DJ'ing when he was just 3 years old! He speaks of his passion and how it inspires him and what that means. He speaks to responsibility and how to balance learning and school with one's dreams. It's an intimate conversation and ends with a Q+A. Kai is gracious, inspiring and motivational for all ages!
- 2.** DJ Lessons: The kids will break up into small groups of 10 or so, for Kai's instruction, inspiration and encouragement. The group will be learning on the latest equipment by Pioneer DJ, which is a rare treat in itself. DJ'ing is hugely popular these days and it's an incredible opportunity for your youth to be taught by a professional DJ, whom they have gotten to know, can relate to, and see themselves in. It's a fun and encouraging experience where every participant will have performed their first mix by the end of each session.

- 3.** Dance Party: An hour and a half of non-stop music with DJ Kai playing a mix of pop and dance music. He will have everyone dancing, laughing and singing along! We bring all the DJ gear needed, a sound system, lights and special effects for a safe, inspiring, music festival type of experience your kids will talk about for weeks and look forward to again!
- 4.** Meet & Greet: The Dance Party is followed by a meeting with Kai featuring giveaways, taking pictures, sharing their experience and signing autographs.

We are happy to customize Kai's Clubhouse for your specific needs. Just reach out and let us know what you are thinking.
